## Schedule of Fees

This document indicates the fees applicable to the electrical safety certification of products identified in the current NSW Gazette and latest AS/NZS 4417.2. For the certification of products not identified in the above-mentioned documents, please contact us on [info@eesconformity.com](mailto:info@eesconformity.com) to discuss and understand your project requirements and subsequently provide an appropriate quote.

EESS Conformity Certification application fees are structured for simplicity with the one fee levelled to cover all products whether declared/non-declared articles or Level 1, 2 or 3 equipment. The new Certificate of Approval / Conformity (CoAC) is a single certificate which now satisfies all the requirements for Australia (states and territories) and New Zealand.

ITEM	EESS CONFORMITY SERVICE	FEE (AUD)
1	Certification of New Electrical Equipment, i.e., CoAC or CoS, or Co-Approval *	\$700 + GST
2	Technical Modification to Certificate **	\$500 + GST
3	Administrative Modification to Certificate ***	\$300 + GST
4	Renewal of Certificate ****	\$650 + GST
5	Certificate conforming to the Clean Energy Council (CEC) *****,	\$2,000 + GST
6	Transfer of Certificate to New Certificate Holder	\$350 + GST
7	Application for replacement certificate (lost or damaged)	\$200 + GST
8	Extension of Current Certificate ( <i>excluding NSW Fair Trading fee, currently \$459</i> )	\$400 + GST
9	EMC Certificate and Declaration ( <i>in accordance with ACMA regulatory requirements</i> )	\$350 + GST
10	Hourly rate ( <i>see Notes</i> )	\$250 + GST
11	Priority Service – 3 working days	+50%
12	Priority Service – 1 working day	+100%
13	Additional report fee ( <i>per report- see Notes</i> )	\$200 + GST

### Legend:

- \* Electrical safety certificate types; CoAC = Certificate of Approval / Conformity or CoS = Certificate of Suitability. or Co-Approval = Certificate Holder allowing third party to use their documents.
- \*\* When a test report or partial test report is required for review.
- \*\*\* If supporting documents, other than a test report is required or no modification to the equipment is necessary.
- \*\*\*\* Renewal option is not available when the original certificate has expired, the report is older than 5 years or the original certified standard edition/year has changed.
- \*\*\*\*\* This Certificate of Suitability to the Clean Energy Council (CEC) requirements is for Inverter Systems, such as Battery Energy Storage System (BESS), Integrated BESS, PV Inverters (PV) and similar clean energy systems.
  - For Battery ONLY System (BS) may be applied in Item 1 above as a standard Certificate of Suitability.

### Notes:

- All fees are based on a single review and processing of one main test report and differences/gap report.
- **Multiple report fee:** Where applications require multiple test reports (more than one main test report and differences/gap report) an additional service fee of AUD \$200 per report may be applied. (Item 13)
- **Additional review fee:** Where additional information is requested and reviewed, charges at the hourly rate may be applied. (Item 10)
- We will upload issued certificate details to the **ERAC/EESS Certification Database** free of charge. However, where the certificate includes multiple models, an additional service fee may be applied as follows:
  - Up to 499 models are included in the original fee.
  - Over 500 models - AUD \$100.
- Availability of **Priority Service** is subject to current workload – please enquire first.
- Upon the client's request, we will register the products on the ERAC/EESS Equipment Database on behalf of the Responsible Supplier for a service fee of AUD \$100 plus the government charge for 1-, 2- or 5-years registration.
