| 10   | Priority Service – 2 (generally 2 working day turnaround)   | +75%   |
| 11   | Priority Service – 1 (generally 1 working day turnaround)   | +100%  |

#### Legend:

\* This **(1a)** is a new service fee levied by EESS Conformity Certification for the now mandatory uploading of certificate details to the new EESS platform ([ees.gov.au](https://ees.gov.au)). This administrative fee **ONLY applies** to applications for a certificate under the Recognised External Certificate Scheme (**RECS**) Level 1, 2 and 3 equipment. EESS Conformity Certification **does not charge this fee for applications made under other schemes**, such as the Recognised External Approval Scheme (REAS), JASANZ or similar. Renewal and Co-Approval/Licence is considered a New Certificate.

This **(1b)** is a service fee EESS Conformity Certification charges to certificate applicants or responsible suppliers who require us to register their equipment on the new EESS platform.

# The workload and minimum number of standards required for this review is **substantial** including the additional scheme requirements.

% The workload and number of standards required for certification is **more than the standard service** including additional requirements.

#### General Notes:

- All fees are in Australian dollars (AUD) and Australian entities are subjected to the Goods and Services Tax (GST).  
**GST is currently 10% and will not be charged to clients outside of Australia.**
- All fees are based on a single review of one main test report and supporting documents. This is the standard service.
- Multiple report fee:** Where applications require review of multiple test reports or standards an additional service fee of AUD \$250 per report/standard may be applied.
- Additional review fee:** Where additional information is provided or requested and reviewed, charges/quotes at the hourly rate may be applied.
- If certification is required by regulation and certificate details must be uploaded to the new EESS platform under the RECS declaration, then an administrative fee of AUD 50 is automatically applied.
- Where the certificate includes multiple models, an additional service fee will be applied as follows:
  - Up to 199 models are included in the original fee (no additional charge).
  - Over 200 models to 499 models will automatically attract an AUD 100 surcharge.
  - Over 500 models will automatically attract another AUD 100 surcharge.
- Upon the client's request, we offer an Equipment Registration Service and will register the Responsible Suppliers products/models on the new EESS platform, typically 3 days after the certificate is issued and on behalf of the Responsible Supplier with a service fee of AUD \$50 plus the government registration fee for 1, 2 or 5-year. This can be choosing at the time of application on our Online Applications System (OAS).
- All bank (local and international) and statutory charges MUST be paid for by the client/responsible supplier/payee.
- Please note: The fees are for our service, resources and time spent on reviewing the documentation provided by the client for our government recognised / accredited certification services. There is no guarantee or implied guarantee you will receive a certificate simply by paying the fee. All fees paid are non-refundable.
- The certificate always remains the property of Conformity Certification Services Pty Limited and its subsidiaries.
- All expenses incurred over and above those normally covered by this Schedule of Fees, will be charged at cost.
- Prices are subject to change without notice; this Schedule of Fees takes effect from 1 January 2025.**

## Schedule of Fees
