Schedule of Fees

ELECTRICAL PRODUCT SAFETY CERTIFICATION (CCS-EPSC)

ITEM	FEE CATEGORY A	FEE
1	Application for New or Renewal or Co-Approval **for other than Fee Category B and C below**	$800
1a	Uploading certificate details to the EESS Platform is mandatory for RECS scheme (only) *	$50
1b	Equipment Registration service voluntary for responsible supplier on EESS Platform *	$50
2	Technical Modification to Existing Certificate	$600
3	Administrative/Non-technical Modification/Transfer Certificate to New Certificate Holder	$400
4	Additional report / standard or substantially modified report	$250
ITEM	**FEE CATEGORY B %**	
5	Application for New or Renewal or Co-Approval/Licence of; • DC Isolator • Lithium-ion battery for use in household product and for e-micromobility vehicle • Electric Vehicle Charger (EVC/EVSE) or accessories, e.g. plug types and/or cable assembly • Portable Power Station/Inverter, NOT intended for grid-connection • Micromobility vehicles including e-bike, e-scooter, e-skateboard, e-hoverboard or similar • LED Luminaire with Unapproved Driver	$1500
5a	Uploading certificate details to the EESS Platform is mandatory RECS scheme (only) *	**$100**
5b	Equipment Registration service voluntary for responsible supplier on EESS Platform *	$50
6	Technical Modification to Existing Certificate	**$1000**
7	Administrative/Non-technical Modification/Transfer of Certificate to New Certificate Holder	$400
8	Additional report / standard or substantially modified report	$250
ITEM	**FEE CATEGORY C #**	
9	Application for New or Renewal or Co-Approval/Licence of; • Inverter system or hybrid inverter or micro-inverter, grid-connected or not • Power conversion equipment/system (PCE/PCS), grid-connected or not • Battery Energy Storage Systems (BESS/ESS), grid-connected or not • Other renewable energy products or similar, grid-connected or not, requiring multiple reviews *Note: Certification of above products may or may not be used for CEC approved product listing*	**$2800**
9a	Uploading certificate details to the EESS Platform is mandatory RECS scheme (only) *	**$100**
9b	Equipment Registration service voluntary for responsible supplier on EESS Platform *	$50
10	Technical Modification to Existing Certificate	**$1400**
11	Administrative/Non-technical Modification/Transfer of Certificate to New Certificate Holder	$400
12	Additional report / standard or substantially modified report	$250
13	Hourly rate	$350
14	**Priority Service is available (see Table below)**	

Legend:

* This **(Xa)** is a new service fee levied by EESS Conformity Certification for the now mandatory uploading of certificate details to the EESS platform (eess.gov.au). This administrative fee **ONLY applies** to applications for a certificate under the Recognised External Certificate Scheme **(RECS)** Level 1, 2 and 3 equipment. EESS Conformity Certification **does not charge this fee for applications made under other schemes**, such as the Recognised External Approval Scheme (REAS), JASANZ or similar. Renewal and Co-Approval/Licence is considered a New Certificate.
This **(Xb)** is a service fee EESS Conformity Certification charges to certificate applicants or responsible suppliers who require us to register their equipment on the EESS platform. This client must state how many years they want their equipment registered and includes the government fee.

% The workload and/or number of standards required for certification is **more than the standard service** including additional review requirements.

The workload and minimum number of standards required for this service/review is **substantial** including the additional scheme requirements.

Schedule of Fees

TABLE: Fee Category, Service Type, Turnaround and Priority Service

FEE CLASSIFICATION	SERVICE TYPE					
	Standard Fee	**RECS ONLY** Platform Upload	**Turnaround** in days	**Priority Fee** (100% surcharge)	**RECS ONLY** Platform Upload	**Turnaround** in days
Category A	$800	$50	**7**	$1600	$50	**2**
Technical Modification A	$600	$0		$1200	$0	
Category B	$1500	**$100**	**12**	$3000	**$100**	**3**
Technical Modification B	**$1000**	$0		**$2000**	$0	
Category C	**$2800**	**$100**	**17**	**$5600**	**$100**	**5**
Technical Modification C	**$1400**	$0		**$2800**	$0	

Notes:

1. In general, turnaround time commences only when CCS has all the relevant documents for the review process, available assessors and decision makers and this is extremely sensitive for priority service particularly the time of application. Weekends are not included as working days.
2. Our Online Application System (OAS) will be able to calculate correctly for invoice or immediate payment if appropriate Service Type and Fee Classification is chosen including if additional test reports are provided for and during application. Otherwise, CCS reserve the right to modify the invoice if additional review work is required and you will be notified of this change.
3. RECS ONLY details uploaded to EESS Platform fee, ONLY relates to New, Renewed and Co-Approval services and DOES NOT apply to Modifications.

ACMA/RSM REGULATORY REQUIREMENTS – EMC CERTIFICATION

ITEM	EMC CONFORMITY CERTIFICATION SERVICES (ACMA/RSM)	PRODUCT TYPES	FEE
1	Non-Radio/Non-Telecom Equipment for Australia **and** New Zealand	AC Adaptors, Kitchen Machines, Power Tools, Microwave Ovens, etc.	$500

5	Wireless Telecom Equipment – Australia **and** New Zealand [4)]	4G/5G Mobile Phones, 5G Data-only Devices, Tablets, Air tags, etc.	$1400
6	Hourly rate	-	$350
7	Modification – quote required [5)]	-	TBA
8	Priority Service – 3 working days [6)]	-	+50%

Notes:

1) EMC Conformity Certification does not act as an Agent for and on the client's behalf in the context of ACMA/RSM requirement, however, if more information is required of our services, please contact us on admin@eessconformity.com
2) Prices above exclude GST, which will only apply to Australian registered business'/entities.
3) This service does not carry a JASANZ endorsement or accreditation mark and does not imply otherwise.
4) This service does not include evaluation of the AS/CA S042 series, a compliant test report is required to be provided by the applicant.
5) Modification(s) to a certificate could be applied for, however the charge will be subjected to the time spent and it will not be more than the cost of the original certificate.
6) Availability of **Priority Service** is subject to the current workload and resources as we will make every effort to deliver within that period, e.g., 3 working day priority (72 hours), please enquire first.
7) Client Guidelines and General Terms and Conditions of Services must be adhered to by clients, certificate applicant and responsible suppliers alike.
8) Our Online Application System (OAS) will have all the up-to-date information and options including method of payment. **Apply for EMC Certificate.**

Schedule of Fees

General Notes:

- All fees are in Australian dollars (AUD or $) and Australian entities are subjected to the Goods and Services Tax (GST).
  GST is currently 10% and will not be charged to clients outside of Australia (overseas entities, thus please tick the appropriate box on our Online Application System (OAS) when applying).
- Standard fee is based on independent reviews of **one** main test report, **one** standard and supporting documents. **This is the standard service.**
- **Multiple report fee:** Where applications require review of multiple test reports or standards, an additional service fee of AUD 250 per report/standard may apply. If this is applicable to you, there is an option on our OAS for you to choose how many **additional** reports/standards are relevant. This fee of AUD 250 may also apply when a substantially modified test report is presented for review.
- **Additional review fee:** Where additional information is provided or requested and reviewed, charges/quotes at the hourly rate may be applied.
- If certification is required by regulation and certificate details MUST BE uploaded to the EESS platform (www.eess.gov.au) under our RECS declaration, then an administrative fee of AUD 50 or 100 (as per the Table above) our OAS will automatically apply, as appropriate.
- Where the certificate includes multiple models, an additional service fee will be applied as follows:
  - **Up to 200 models/profiles are included in the original fee (no additional charge).**
  - Over 200 models to 500 models/profiles will automatically attract an AUD 100 surcharge.

  NOTE: As the EESS Platform limits profiles/models to 500 for efficient API uploading purposes, our RECS certificate will be limited to 500 profiles.
- Upon the client's request, we offer an Equipment Registration **Service** and will register the Certificate Application / Responsible Suppliers products/models on the EESS Platform, typically 3 days after the certificate is issued for and behalf of the Responsible Supplier with a service fee of AUD $50 plus the government registration fee for 1, 2 or 5-year. This can be chosen (tick box) at the time of application on our OAS.
- All bank (local and international) and statuary charges MUST be paid for by the client/responsible supplier/payee.
- IMPORTANT: Fees are for our services, resources and time spent on reviewing the documentation provided by the client/certificate holder for our government recognised / accredited certification services. **There is no guarantee or implied guarantee you will receive a certificate simply by paying the fee or not providing completed documentation. All fees paid or invoiced are non-refundable.**
- The certificate always remains the property of Conformity Certification Services Pty Limited and its subsidiaries.
- All expenses incurred over and above those normally covered by this Schedule of Fees, will be charged at cost.
- **Prices are subject to change without notice; this Schedule of Fees takes effect from 1 January 2027.**
